Description of project idea, incl. theme and activities: Opis celów projektu wraz z podaniem przewidzianych działań	
<p>With educational GPS to professional career".</p> <p>The project aims at providing its participants with knowledge, skills and competence which will allow them to actively and professionally create their career paths and move about with ease on domestic and international job market. Not only will the participants perfect their language competence and IT skills, but also get to know the past and the present of the partners' countries and regions through learning about their culture, customs, traditions, history and contemporary situation. However, the main goal is to develop materials and shape skill responsible for the ability to create one's own career path which will ensure one's future success on the job market. An in-depth analysis of the future European job market will be conducted and modern technologies applied such as: internet mailing, eTwinning, video conferencing, instant messaging, digital cameras, cam codes, computers, and tablets. The participants will create various materials in the form (multimedia) presentations, exhibitions, movies and psychodrama and will have the opportunity to suggest other forms as well. The participating teachers will share their knowledge and experience with the colleagues from the partner schools and compare educational policies and work methods. The target of the project are high school students. The project assumes the involvement of job market institutions such as job centres and local governments. The output will be shared among the youth of the partner schools, their parents, the youth of their cities and regions and local governments as well as institutions dealing with this subject. The project will also be promoted through local and regional media. the final materials will be permanently incorporated into the curriculum of business studies and meetings with career advisor, psychologists, and school cancellors."</p>
