

## CALL FOR PARTNERS

### MOBILITY FOR YOUNG ARCHITECTURE TALENTS

#### CREATIVE EUROPE

The [Foundation Sierra Henriques](#), highly involved member of [LIKE](#), is looking for partners for their Europe Creative project “Mobility for young architectures talents” !

Strong of its expertise in European projects but also in the cultural field, the SH Foundation has since long expressed its interest to work in the architecture field. To go beyond what they already achieved - National Architecture and Urbanism Award (Archiprix Portugal) organised in collaboration with the Order of Architects, the Archiprix Foundation, Portuguese Universities, the Lisbon Architecture Triennale and the Docomomo International Committee - they are now pursuing another aim: to promote transnational mobility for young architects and enact synergies among already existing regional platforms so that new architecture talents may build their artistic careers and create enduring international connections.

Because, the end of the call is coming real quick, the **23rd of November**, they need to know urgently if you are interested in joining in the partnership.

Please find below some key features :

**Project Leader** : Serra Henriques Foundation, Lisbon (Portugal)

**Call** : Creative Europe - EACEA/45/2016

**Deadline** : 23/11/2016

**Potential partners :** EU cultural promoters, architecture awards, local authorities...

**Associated Partners :** Archiprix Spain, Netherlands, Italy, Spain; Turkey, Chile and Russia; Lisbon Architecture Triennale; Task Force Culture of the Association of European Border Regions.

**Objectives :**

- Improve exposure of young talented architects and their projects
- Promote exchange of expertise and good practices among young professionals
- Promote contact among diverse European socio-cultural contexts, namely across European opposing borders Southwest /Northeast limits, and central/peripheral
- Provide young professionals with the tools and know-how so they may engage in questions of European territory and cities development
- Induce a strong sense of responsibility, participation, creativity and inclusion into new architecture practices through the role model of Archiprix initiative
- Raising a greater audience and public awareness about the value and importance of architecture and how it may change their way of living, their homes and their cities.

**Contact person responsible for the project :**

**Alexandre de Resende**, Consellor for European Cooperation
